**Re:** Important Updates about Road Construction on Hwy 169

Please review the following important information and prepare accordingly.

Spectrum received the following information from the Elk River Chamber of Commerce (as provided by the City of Elk River). Please review the information and plan your route to and from Spectrum accordingly. Please also note that all drivers who utilize 169 for a north/south route will likely seek out the easiest route between two points, which may increase traffic on Twin Lakes Road during this time.

**Work Begins the Week of March 25, 2024**

The final year of the 169 Redefine project is set to begin this month.

**HERE IS WHAT YOU CAN EXPECT:**

**Through March**

- Crews begin preparing the work zone and installing temporary crossovers and bypass lanes.
- This work will involve periodic lane closures on Hwy 169 between Hwy 10 and School St.

**Week of March 25**

- Main St. on the west side of Hwy 169 will close to Carson Ave. to construct a temporary bypass lane.
- Main St. on east side of Hwy 169 will remain open.

**Week of April 1**

- Crews will deactivate and remove the signal system at Hwy 169 and Main St.
- Hwy 169 will be reduced to one lane, each direction, 24-7, between Hwy 10 and School St.
  - Crews will construct the northbound side first as traffic uses southbound lanes.
- Main St. on the west side of Hwy 169 will remain closed to Carson Ave.
- Main St. on the east side of Hwy 169 will close to Zane St.

**Local access will be open and maintained. Hwy 169 access will be open at Hwy 10, School St., Jackson/193rd Ave., and 197th Ave.**

# Hwy 169

## 2024 work zone

Single-lane traffic, changes to access

Construct interchange
